TAPT RESEARCH

# 2005 TAPT Passenger Restraint Survey

- The survey was advertised to School Directors and the TAPT membership. It collected yes or no responses. The participant was asked the following questions.
- 1. Do you support 2 point lap belts on school buses?
- 2. Do you support 3-point restraint systems on buses?
- 326 responses were received. We have no way of knowing who completed the survey but there is a high probability that they were school directors or school system employees.

# Survey Results

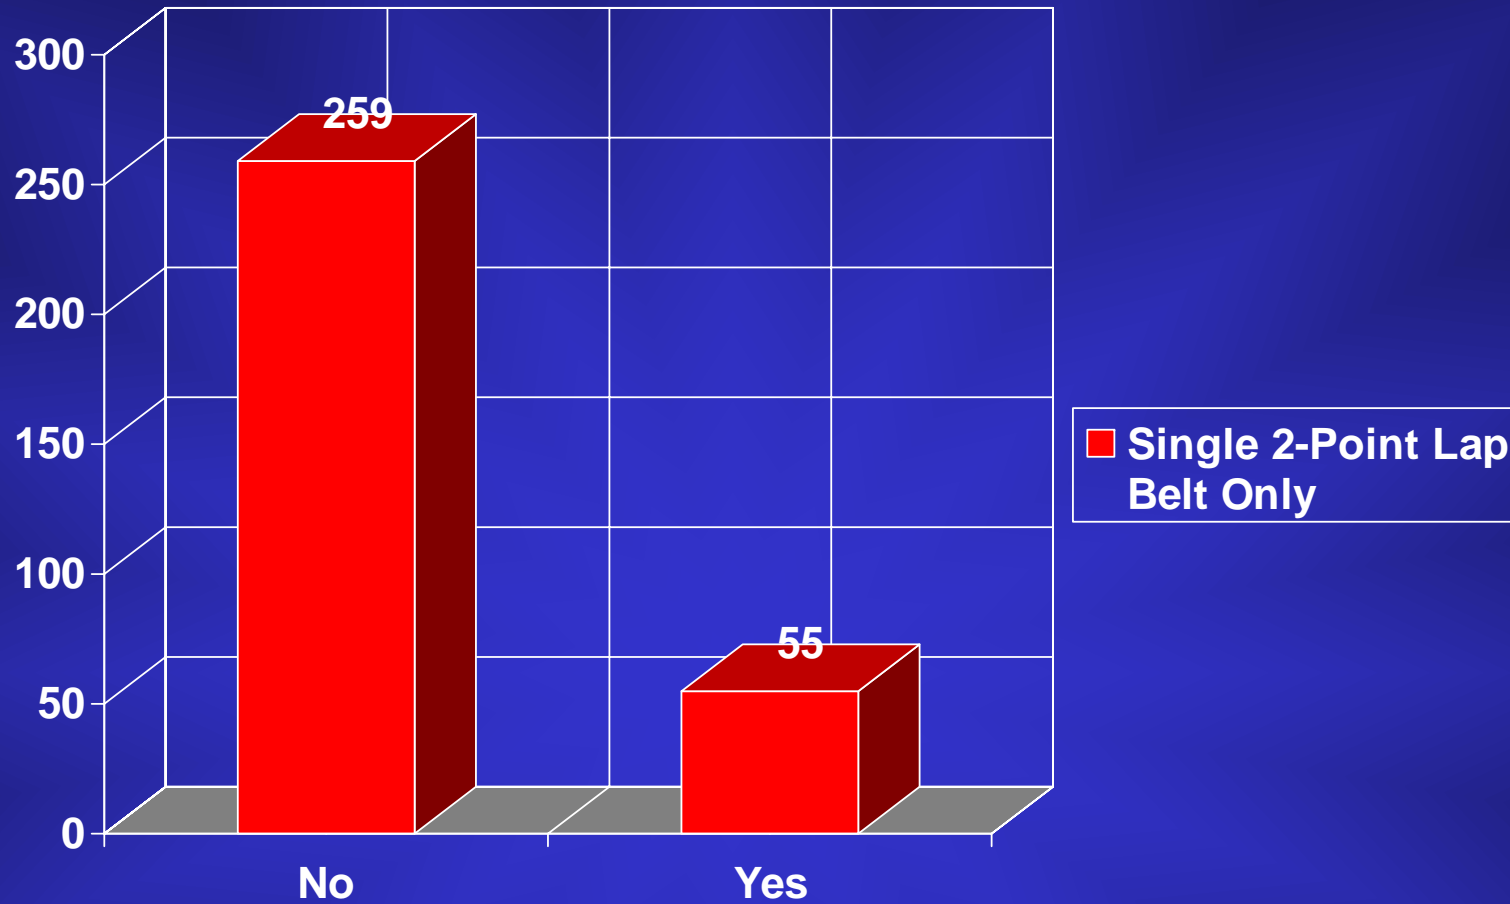

- 2-Point Lap Belt Question

- Yes = 55 or 16.8%
- No = 259 or 79.2%
- No Opinion = 13 or 4%

- 3-Point Restraint System Question

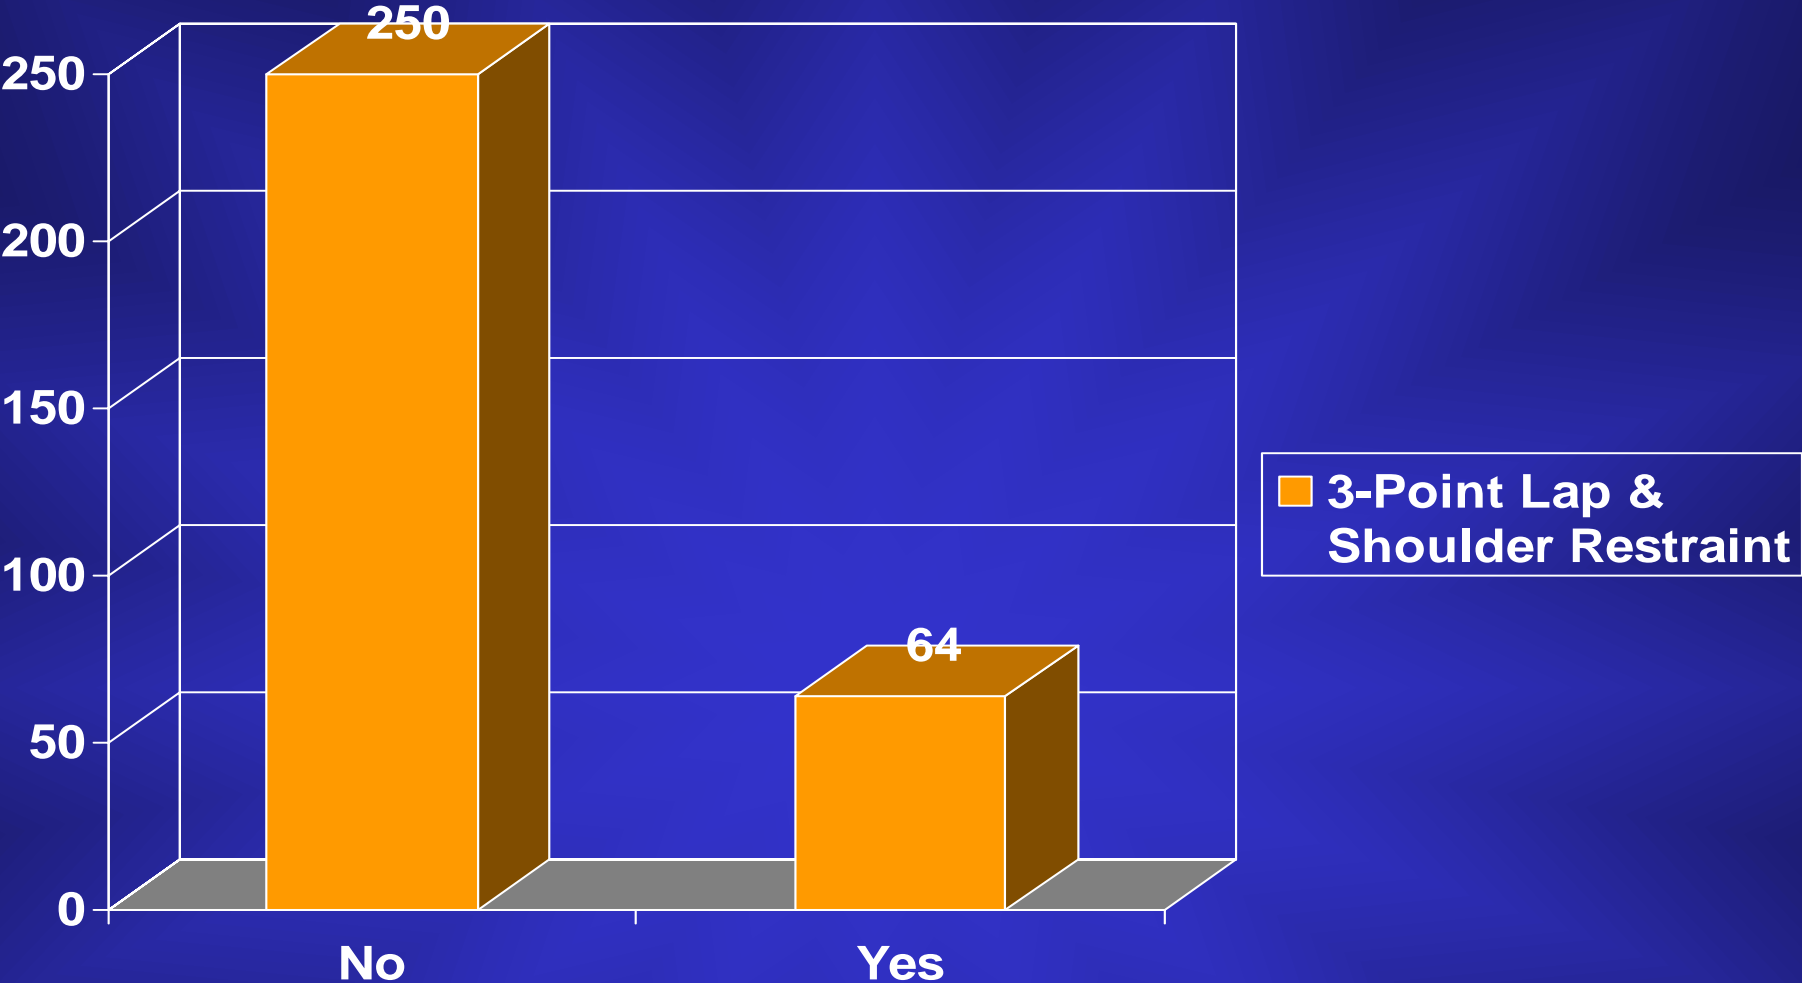

- Yes = 64 or 19.6 %
- No = 250 or 76.5%
- No Opinion = 13 or 4%
